

Biology Application

Biology is an honors class intended for those nine graders interested in pursuing a career related to some areas of Science and/or Medicine. Biology is usually taught in the sophomore or junior years. As part of our accelerated program we offer the class to ninth grade students who, through past performance, have shown that they are capable of succeeding in the class. Because of the pace of the class and the depth of the curriculum, students who do not meet the screening requirement will not be accepted.

Please fill in the following information below, attach your **2nd quarter report card (or a copy of it, or a copy from Skyward)**, and return it to your science teacher by **Friday, February 2, 2018**. Any application received after this date or without a copy of their report card attached will not be accepted.

Name _____ Student Number _____

1. Cumulative GPA as of the end of 1st Semester _____

2. I have had _____ N's and _____ U's in the 8th grade.

_____ 3. The math class I have enrolled in for 9th grade is _____.

Have your math teacher sign that this is the correct class.
